- Our covers are made from heavy duty fiberglass. Large covers are equipped with sturdy aluminum support bars.
- Our covers are so strong they support up to **300 lbs**, and *we guarantee them for **life!***
- Keep snow, rain, debris and animals out of your window wells.

- Safety locks available for additional security. Prevent children from falling into your window well.
- Easy release (from inside) for emergency exit.
- Translucent fiberglass with frosted appearance assures privacy but lets sunlight through.

Windo-Well Cover Co.®

Highest Quality Materials and Workmanship . . .

Lifetime Guarantee

against damage resulting from normal use

**Vertical Flashing to Seal
Raised Window**

- Protect against accidental injuries to children and adults. Open wells can be dangerous.
- Cuts down drafts caused by unprotected basement windows. Prevents basement windows from blowing out because of high winds.
- Our policy is quality Material and Workmanship. Customer Satisfaction is our goal.
- TYPES OF INSTALLATION (available for most wells):
 - CLIPS - A spring clip attaches to window well, can be taken off from outside or inside.
 - LOCKS - A safety-hasp hinge hangs down from cover and an eye loop is attached to window well; a cotter pin secures cover down allowing easy release from inside but deters access from outside.
 - COMBINATION - (if applicable) Clip down small window well covers & lock down escape window well covers.
